

Mischievous Girl [lyrics: Libby Hammer/music: Grant Windsor]

Hey little girl, stay away from my man
I see what you're doing with your sinister plan
Hey little girl, better slow it on down
Word's getting out, baby, all over town
Just look around little mademoiselle
All of the boys falling under your spell
Hey little girl you had better beware
I see you baby, shakin' that derriere

So you're out having fun, ain't a-hurtin' no-one
Listen to the organ swirl
But you're stealing my scene, if you know what I mean
Don't you lose your head
Mischievous girl, don't think you can
Mischievous girl, leave with my man
Mischievous girl, just dance on by
Mischievous girl, before he catches your eye!

Hey pretty bird, getting up to your tricks
Please leave some crumbs for the rest of us chicks
Stop, lil' sister 'fore the word gets around
If you live it up, then you won't live it down
How can the boys keep their eyes on the job
With you groovin' out to the Theme From The Blob
You're turning heads like a Mexican wave
So little girl, you had better behave

Well, you're looking so fine as you dig the bassline
And listen to the drummer whirl
But you're turning his head like the lady in red
Just you watch your step
Mischievous girl, yeah, you're hot stuff
Mischievous girl, I'll call your bluff
Mischievous girl, just dance on by
Mischievous girl, 'cos you're bewitching my guy!
